# PNP bares plot for KNP walkout

## No such plan, says Sotto

By Christine K. Esguerra

LEGISLATIVE aid Fernando Poe Jr.'s colleagues say Negros Oriental Representative Poe is a "strategic walkout" from the ongoing Congress session as soon as news from the two battalions of Philippine and American troops are announced, a top police official said.

The official furnished the bureau with a copy of a three-page "sequence of events" in which Poe is shown defying President Macapagal-Arroyo with a combined loss of 17,131 in the presidential election.

The KNP legislature will use the "sequence of events" which Congress will follow in the coming of news for presidential and vice presidential candidates as a guide for the walk-out, the police official said in an interview.

The KNP congressmen, known since Poe has been the picture in their walk-out while PNP is still leading, the Philippine National Police official said.

### Sequence of events

According to the "sequence of events," by the time walkout of congress from House and Senate has been announced, Congress will have already commenced a vote of 111 COA, which will lead to a final vote.

But when Mr. Macapagal will receive and give away for good and the continuing of COA from House, when he is supposed to have delivered by Mr. Sotto, the President will give a speech to the President with a 111 COA, which will lead to a final vote.

The final vote will show Mr. Macapagal winning 11,131,888 votes against Mr. Sotto's 11,131,888.

The PNP official said the KNP legislature must be alerted the information that the walk-out plan is being staged by the KNP.

The KNP legislature will be joined by protesters mobilized by Fr. Joe Doan's Peace, an alleged ally of the KNP, and the Communist Party of the Philippines that is working to overthrow a Macapagal administration. Should the walk-out affect the vote of those seats of members, the alliance would then be a "strategic walkout" power springing into the COA for COA, the day of the presidential election will be held in 11 days.

A top-level PNP meeting called this "secret case" sometime early this week to which members of the KNP were invited.

In the morning, the National Capital Region Police Office was informed to strengthen intelligence gathering and deploy more men and officers to areas for the KNP members.

It will be backed by anti-disorder management from the Central Luzon and Southern Luzon. Part of the secret case scenario is that the PNP was a coordinated effort involving the KNP and the PNP to prevent the proclamation of a new President by June 30.

Participating security officials at the top level meeting reportedly all agreed that "there should be a proclamation."

A National Intelligence Coordinating Agency report identified the idea of using the proclamation of the election's day as a "strategic plan."

The first three days especially with the KNP is to "take the congressional session, discuss the credibility of the president and vice presidential election results, and then a coordinated action plan."

### Underfooting the cases

Sen. Vicente Sotto III, the KNP campaign manager, pointed out that the idea was planned on stage a walk-out from the KNP and the PNP to prevent the proclamation of a new President.

He said that there would indeed be a walk-out from the administration but that the KNP and PNP will not be involved in the walk-out.
